EDUCATION

Ontario Tech University

Bachelor of Science (Honours) in Computer Science

- **Relevant coursework:** Data Structures & Algorithms, System Design, Computer Networks, Database Systems.

Expected: May 2027

Oshawa, ON

Centennial College

Software Engineering Technology Advanced Diploma | Honours Scholar - GPA: 4.295 / 4.5

Jan 2023 – Dec 2025

Scarborough, ON

EXPERIENCE

TheCodeCrackers Inc.

Software Engineer Intern

- Authored automated Postman test plans validating **2,000+ REST APIs**, logging and tracking defects end-to-end using Jira's API
- Built a **3-agent AI debugging pipeline** (assess, diagnose, fix) to analyze PRs, catching **150+** production bugs before release
- Collaborated in **Agile code reviews** to improve test coverage, edge-case handling, and backend reliability across sprint deliverables

May 2025 – Aug 2025

Vaughan, ON

Able I.T Solutions

Technical Customer Service Representative

- **Eliminated 2 hrs per shift** of manual triage by **building an AI agent** that ranked tickets by severity with auto-synopses
- Resolved **20–40 client issues** daily with a **92% resolution rate** via structured troubleshooting workflows and communication
- Collaborated with **cross-functional** teams to diagnose escalated software issues, improving resolution turnaround times by **20%**

May 2023 – Present

Scarborough, Ontario

Remedy'sRx

Junior Developer

- Proactively improved **legacy Angular POS** workflow, boosting responsiveness by **25%** and reducing checkout steps from **5 to 3**
- Automated inventory reconciliation using **Python and SQL**, reducing correction time by **40%** across **1,000+** weekly transactions

Feb 2022 – May 2023

Scarborough, ON

PROJECTS

Projects by the Projects | *React, Spring Boot, PostgreSQL, Stripe, Cloudflare*

ProjectsXProjects.ca

- Built and scaled a **full-stack** nonprofit platform serving **125+ subscribers** and facilitating **\$50K+ in donations** across projects
- Engineered **Stripe + Spring Boot** payment workflows with a **99.6%** success-rate on transactions and reliable donation handling
- Optimized PostgreSQL queries and Cloudflare caching to cut API response times by **45%** and improve reliability under peak traffic

MyE46 | *React Three Fiber, Three.js, Express.js, Zustand, Gemini API*

MyE46.app

- Launched an **Agentic 3D car configurator** reaching **600+** users on week one, with real-time part swapping, color, ride height
- Fixed GPU overload from **200 users** by designing a 3-tier adaptive rendering system, cutting GPU usage from **90%** to **15-30%**
- Built an **Agentic AI** advisor with **SSE streaming**; users describes mods in plain English and see live budget-aware car updates

ASL Hand Coach | *React, TypeScript, Google MediaPipe, Tailwind CSS*

ASLHandCoach.ca

- Built a browser-based ASL app recognizing fingerspelling signs from live camera input with **sub-200ms** ML inference latency
- Engineered a real-time **ML inference pipeline** with a **CNN** palm detector + landmark regression, extracting 21 hand keypoints
- Achieved **90%** recognition accuracy across 36 signs (A–Z, 0–9) by tuning landmark geometry thresholds and finger-state heuristics

HiddenHooks | *Python, FastAPI, PostGIS, NetworkX, GeoPandas, Next.js, Mapbox GL*

HiddenHooks.ca

- Built a **PostGIS ranking engine** over **3GB+** of Ontario geospatial data across 9 open-data sources, scoring **100K+** water bodies
- Designed a **4-stage ETL pipeline** ingesting shapefile/CSV/GeoTIFF sources; tuned **GiST + KNN indexes** for spatial queries
- Built a **NetworkX inference pipeline** propagating fish-presence signals across connected waterways via multi-source BFS

LEADERSHIP EXPERIENCE

Chief Technology Officer (CTO) | *Projects by the Projects*

Jan 2025 – Present

- Led **technical planning** for community nonprofit, defining platform needs, prioritizing features, and guiding **software initiatives**
- Contributed to **campaign strategy** by identifying projects and causes that connect community needs with **actionable solutions**

TECHNICAL SKILLS

Languages: Java, Python, TypeScript, JavaScript, C++, C#, SQL, Bash / Shell

Frameworks: React, Next.js, Node.js, Express.js, Spring Boot, Flask, .NET, Angular, Three.js / React Three Fiber, MediaPipe

Developer Tools: Git, Docker, Jira, AWS, Azure, PostgreSQL, Cloudflare, SQL Developer, Linux/Unix, Visual Studio Code, IntelliJ

Concepts: REST API Design, Microservices, CI/CD, Computer Vision, AI Agents & Automation, Multithreading & Concurrency
